Welcome to the SSM annual meeting in Interlaken

Dear microbiologists, dear participants,

On behalf of the Swiss Society for Microbiology and the scientific committee, it is my great pleasure to welcome you to Interlaken for the annual meeting on August 27th and 28th, 2025. The meeting will take place at the Congress Kursaal, located in the heart of the picturesque small village of Interlaken, home to 6259 residents and more than a million tourists annually.

I am happy to announce an exciting scientific program comprising five keynote lectures delivered by leaders in their fields and a total of 25 parallel sessions covering hot topics from the different sections of the SSM – Clinical Microbiology, Environmental Microbiology, Molecular Microbiology, Mycology and Virology. In addition to the authoritative scientific talks given by invited speakers, short talks will be selected from the submitted abstracts, and ample time will be given for stimulating poster sessions. We will also have inspiring sessions organized by the sections Early Career and Lay Communication (my thesis in 180 seconds).

At the congress, you will not only be exposed to great science but have the opportunity to network with friends and colleagues, socialize, and find your next job. For these activities, the Networking Dinner – taking place at the Congress Kursaal – will provide an ideal setting. Finally, there should even be time to enjoy the spectacular scenery of Interlaken and surroundings or take a swim in one of the two lakes. I am looking forward to an exciting meeting and hope that many of you will join the 2025 congress in Interlaken!

Prof. Hubert Hilbi
SSM president and chair annual meeting 2025

Speed science is a session where posters are highlighted in 3-minute time slot, in addition to a poster in paper format.

- The allocated speaking time is 3 minutes and no time for discussion
- The moderators will ensure that the time limit is not exceeded.

Be prepared for an exciting session!

Plenary Room Theatersaal

Selected abstracts from the submission process from PhD and MD PhD students will present their thesis in 180 seconds using lay words.

There will be a prize for the best presentation. But it is not the quality of the science that is considered at all here. The jury will consider the following criteria :

- Timing
- Story telling
- Humor
- Illustrations
- Keep it simple
- Art of speaking
- The talks will be exactly 180 seconds (3mn) each
- No question/discussion since it is based on a talk of 180 seconds exactly
- The moderators will ensure that the time limit is not exceeded.

Be prepared for a dynamic session!

Breakout room Brünig

Join us for the Early Career Round Tables sessions on Wednesday, August 27th, and Thursday, August 28th, from 13:00 to 14:00. Dive into 30-minute roundtable discussions in groups capped at four early-career scientists, each guided by an inspiring expert in microbiology. These sessions offer a prime setting for delving into topics like career development, cultivating professional network, enhancing relevant skills, and achieving work-life balance. You'll gain insights from esteemed microbiologists and infectious disease specialists. It's a chance to forge meaningful connections with prominent figures in the field and your peers. With only 20 spots available each day, ensure your place at this exclusive event by registering promptly – attendance is on a first-come, first-served basis!

On Thursday August 28, 2025 at 16.00-16.30

Plenary room Theatersaal

During the meeting, you may be lucky and win one of the following awards:

- Best Oral Presentation : 5 Awards (one per section) in the context of the annual meeting presentations.
- Poster Award : 3 Awards selected during the annual meeting by an ad-hoc award committee
- My thesis in 180 seconds award : 1 award will be given to the best presentation

All the above-mentioned awards as well as the SSM Encouragement Award will be presented at the end of the meeting during the very last session.

The SSM encouragement award is given to young investigators in the field of microbiology for achievements that are outstanding in terms of their originality and of particular scientific value. Achievements in the field of teaching as well as research and development are taken into consideration as well. The Award is given for a work that has been carried out in Switzerland or that is closely connected with our country. To know more about the rules, please go to <https://www.swissmicrobiology.ch/promoting/awards/encouragement-awards>
