

MEDICAL UNIVERSITY OF GRAZ—WHO WE ARE

The Medical University of Graz takes a holistic view of the human being. We are committed to supporting, accompanying and training the people entrusted to us and promoting their development. “Pioneering Minds—Research and Education for Patients’ Health and Well-being” is our common strategy and vision that keeps us moving forward.

Become part of an extraordinary team—become a pioneering mind!

Tenure Track Professor of Mycological Diagnosis and Epidemiology

Diagnostic and Research Center for Molecular Biomedicine / Diagnostic and Research Institute of Hygiene, Microbiology and Environmental Medicine

Full-time position (100%); initially limited to 6 years, becoming a tenured position when the qualification agreement is met

We are looking for an excellent specialist and researcher with great potential to expand our internationally recognized scientific and research agenda in the field of medical microbiology. The successful candidate should be a proven expert in the diagnosis and epidemiology of fungal infections and represent this field in research, teaching and patient care.

The successful candidate should be willing to engage in interdisciplinary and interprofessional cooperation between different specialist areas as well as with occupational groups that provide care and technical medical services.

The initial appointment is limited to six years. After the conclusion of a qualification agreement, the career advancement goal is to transfer to a tenured position as an associate professor (tenure track professor pursuant to § 99 para. 5 and 6 of the Universities Act). If the candidate demonstrates outstanding and remarkable achievements, the qualification agreement may be fulfilled more quickly.

Core duties and responsibilities

- Innovatively advancing research in the field of medical mycology
- Designing, acquiring, implementing and managing funded research projects
- Establishing and leading a nationally and internationally recognized multidisciplinary team and promoting junior researchers and clinicians
- Cooperating on research that exploits the strengths of the institute, other disciplines at the Medical University of Graz and national and international networks
- Writing and publishing high-quality scientific papers
- Overseeing and advancing mycological diagnosis and cooperating on all aspects of diagnostic medical microbiology
- Teaching undergraduate and graduate courses in medicine, supervising diploma and PhD students
- Organizing and participating in conferences in the academic field
- Supporting scientific and public outreach in the research area (public lectures, media, etc.)

Successful candidates must have the following qualifications and skills:

- Degree in medicine and a relevant doctoral degree
- Authorization to practice as a specialist in clinical microbiology and hygiene or an equivalent specialist qualification
- Extensive experience in all aspects of diagnostic medical microbiology including quality management
- Great expertise in basic research in experimental mycology as well as applied clinical microbiology research proven by publication of high-impact scientific papers in peer-reviewed journals
- Experience in planning, organizing, conducting and analyzing diagnostic clinical trials
- Experience in setting up and directing a scientific working group
- Experience in university teaching and/or (co)advising doctoral students and/or training postdoctoral scholars
- Proven track record of international networking and lecturing
- C1 level of proficiency in both spoken and written German and English (Common European Framework of Reference for Languages)

The ideal candidate has the following profile:

- Research stay abroad at a different research institution than the one where he/she received specialist training
- Great willingness to engage in interdisciplinary and interprofessional cooperation
- Ability to work in teams and ability to inspire colleagues and students
- Responsible work habits, resilience and ability to solve problems
- Good communicative and social skills
- Management and leadership skills

Application:

Med Uni Graz invites all applicants to submit their application online by **23 March 2023**.
