

A place of teaching, research and life, the University of Lausanne (UNIL), Switzerland brings together more than 14,000 students and nearly 4,000 employees, teachers and researchers. Ideally located by the lake and downtown, its campus brings together some 120 nationalities. The Faculty of Biology and Medicine ([FBM](#)) of UNIL and the University Hospital Lausanne ([CHUV](#)) invite applications for a position of :

**Senior Lecturer (MER1),
Head of the Molecular Hepatology and Virology Laboratory,
Service of Gastroenterology and Hepatology CHUV**

Starting date: to be agreed

Place of work : Lausanne, Switzerland

The [Service of Gastroenterology and Hepatology](#) of the CHUV is looking for an expert in the molecular virology and pathogenesis of viral hepatitis.

Mission Job :

- Management of a team of 5-7 post-doctoral, doctoral and undergraduate level collaborators as well as research technicians.
- Pursuit of a competitive and innovative research program focused on the molecular virology and pathogenesis of viral hepatitis, with a translational angle.
- Ability to contribute to research fund raising.
- Participation in teaching of general and medical virology.
- Raise interest and transfer knowledge in basic and translational research to young researchers and clinicians.
- Facilitate synergy between clinical and basic research activities on viral hepatitis in the Service of Gastroenterology and Hepatology.
- Contribute to the institution's recognition in the field of viral hepatitis.

Qualifications and requirements :

- PhD in biochemistry or equivalent and postdoctoral experience in virology.
- Documented expertise in the molecular virology and pathogenesis of viral hepatitis.
- Experience in teaching of general and medical virology.
- Ability to integrate into a multidisciplinary service, working closely with the Institute of Microbiology and other Departments and Institutes of the CHUV and UNIL.
- Ability to manage and to motivate a team.
- Proficiency in oral and written French and English.

Further information may be obtained from **Prof. Darius Moradpour** (darius.moradpour@chuv.ch), **Head of the Service**.

Applications must be formulated in English and should include the motivation letter, the curriculum vitae, the list of publications with a copy of the five most relevant ones, the list of external funding obtained, a brief description of the research program and of teaching experience and a copy of diplomas. They should be submitted online by December 20th, 2017 to <https://wwwfbm.unil.ch/releve/application/> as a single PDF file.

The job description is available on [the same link](#).

Seeking to promote an equitable representation of women and men among their staff, the University and the Lausanne University Hospital encourage applications from women.
