Welcome word

Dear Colleagues,

Please save the date for the Annual Congress of the Swiss Society of Microbiology, which will take place from 26-28 August 2026 at the 2m2c Music and Convention Centre, on the shores of Lake Geneva in Montreux, Switzerland.

The congress will bring together experts from across the full spectrum of microbiology, including clinical microbiology, virology, mycology, microbial ecology, and molecular microbiology.

The Scientific Committee, chaired by Prof. Philipp Engel and Prof. Tom Ian Battin, aims to create an interdisciplinary and supportive environment with strong opportunities for presentation, discussion, and networking, especially for early-career researchers.

The scientific program will include:

- 5 keynote lectures
- 15 parallel sessions covering current and broad topics in microbiology
- 2 dedicated poster sessions
- “My Thesis in 180 Seconds”
- Lay communication activity
- An afternoon dedicated to Early Career Researchers

We look forward to welcoming you to Montreux in 2026.

Kind regards,

The Organizing Committee of the 2026
Annual Congress of the SGM-SSM

CHF 120.00 (limited places)

at 2m2c Montreux Music Convention Center

BE A GAME CHANGER
You can make a global impact

Being a Microbiologist today - organized by the Early Career Section – Wednesday, August 26, 2026

I participate Wed August 26, 2026 at 15.00

☐ yes (included in the registration fees)

I participate in the early career evening on Wed August 26, 2026 at 18.30

☐ yes (included in the registration fees)

Daily participation at 50% of the indicated late rate. Please contact the congress management.

* In order to benefit from the Member fee, the annual membership 2026 has to be duly paid to the SSM.

** In order to benefit from the reduced fee, PhD students are required to send a document confirming their status to the Congress Management info@meetingcom.ch

More information to come

BE A GAME CHANGER
You can make a global impact

On Thursday, August 27, 2026 at 13.30**Plenary Room Miles Davis Hall**

Speed science is a session where posters are highlighted in 3-minute time slot, in addition to a poster in paper format.

- The allocated speaking time is 3 minutes and no time for discussion
- The moderators will ensure that the time limit is not exceeded.

Be prepared for an exciting session!

On Friday August 28, 2026 at 09.20**Plenary room Miles Davis Hall**

Selected abstracts from the submission process from PhD and MD PhD students will present their thesis in 180 seconds using lay words.

There will be a prize for the best presentation. But it is not the quality of the science that is considered at all here. The jury will consider the following criteria:

- Timing
- Story telling
- Humor
- Illustrations
- Keep it simple
- Art of speaking
- The talks will be exactly 180 seconds (3 mn) each
- No question/discussion since it is based on a talk of 180 seconds exactly
- The moderators will ensure that the time limit is not exceeded.

Be prepared for a dynamic session!

Awards

On Friday August 28, 2026 at 15.50

Plenary room Miles Davis Hall

During the meeting, you may be lucky and win one of the following awards:

- Best Oral Presentation: 5 Awards (one per section) in the context of the annual meeting presentations.
- Poster Award: 3 Awards selected during the annual meeting by an ad-hoc award committee
- My thesis in 180 seconds award: 1 award will be given to the best presentation

All the above-mentioned awards will be presented at the end of the meeting during the very last session.

BE A GAME CHANGER
You can make a global impact

Welcome & Introduction

MILES DAVIS HALL

KEYNOTE 1

MILES DAVIS HALL

Chair:

Expansion Microscopy Atlas of Microbial Eukaryotes

K01

Omayya Dudin, Geneva

Discussion

SESSION 1 CM

MILES DAVIS HALL

Swiss Dialogue on Diagnostic Harmonization: Antimicrobial Susceptibility Testing

Chair:

Current AST Practices in Swiss Clinical Microbiology

M01

Laboratories: A Nationwide Survey

Stefano Mancini, Zurich

Round table

Stefano Mancini, Zurich; Damien Jacot, Lausanne;

Salomé Seiffert, St. Gallen; Abdessalam Cherkaoui, Geneva

SESSION 2 MM

AGORA 1-2

Microbes in food

Chair:

Taste the Microbiome: The Ecology of Microbial

M02

Terroir in Fermented Foods

Lena Flörl, Zurich

* Student presentation

10.15-11.45

SESSION 3 MY

MILES DAVIS 3-4

Swiss Mycology Symposium

Chair:

10.15-10.30

Malassezia at the Host Interface in Health and Disease

S01*

Fiona Fischer, Zurich

10.30-10.45

Four cases of persistent dermatophytosis caused by terbinafine-resistant *Trichophyton indotineae* diagnosed in a private laboratory

S02

Géraldine Jost, Geneva

10.45-11.00

Exploration of novel mechanisms of manogepix resistance in *Candidozyma auris*

S03*/MT04*/

P008*

Anaïs Hautefeuille, Lausanne

11.00-11.15

A conditional TE-driven hypermutator state in a major wheat fungal pathogen

S04*

Ivona Glavincheska, Zurich

11.15-11.45

Jumping Genes and Pathogenic Schemes: The diverse role that transposons play in plant pathogen evolution

M03

Megan McDonald, Zurich

10.15-11.45

SESSION 4 ME

AGORA 5

Microbial Ecology

Chair:

10.15-10.45

Strain transmission and microbiome dynamics in early life

M04

Pascale Vonaesch, Lausanne

10.45-11.00

Plasmids and prophages drive horizontal gene transfer in the developing infant gut microbiome

S05

Md Karim Uddin, Helsinki (FI)

11.00-11.15

Antagonistic bacterial interactions in the human gut microbiome

S06*

Eva Rigendinger, Zurich

11.15-11.30

Antibiotic stress promotes competitive interactions in gut-derived bacterial communities

S07

Maxime Batsch, Lausanne

11.30-11.45

Combined cryo-electron tomography imaging and identification of microbes as a novel tool for environmental microbiology

S08*/P096*

Nikolai Petrosian, Zurich

* Student presentation

BE A GAME CHANGER
You can make a global impact

10.15-11.45

SESSION 5 VI

AGORA 3-4

Virus-host interactions

Chair:

10.15-10.45

M05

A wild-type mouse-adapted SARS-CoV-2 model captures multi-organ long COVID and enables host-focused mechanistic and interventional studies

Stefanie Bader, Heidelberg (DE)

10.45-11.15

M06

RNA decay and KSHV infection: Deciphering the viral-host arms race to control RNA stability

Mandy Müller, Lausanne

11.15-11.30

S09

A primate specific transcription regulator facilitates transcriptase activity of influenza A virus polymerase

Mehdi Chabert, Geneva

11.30-11.45

S10*

Mechanistically Distinct Therapeutic Strategies Restore Antiviral Immunity in the Presence of Neutralizing Anti-IFN β Autoantibodies

Chau Tran, Zurich

11.45-13.15

Lunch Break / Poster viewing / Exhibition

EXHIBITION

13.15-14.45

SESSION 6 CM

MILES DAVIS HALL

Swiss Dialogue on Diagnostic Harmonization: Next Generation Sequencing

Chair:

13.15-13.45

M07

One Genome – One Interpretation? Lessons from the Swiss Journey Towards Harmonized NGS Diagnostics

Tim Roloff Handschin, Zurich

13.45-14.45

Round table

Alban Ramette, Bern; Claudio Neidhöfer, Basel, Claire Bertelli, Lausanne

* Student presentation

BE A GAME CHANGER
You can make a global impact

13.15-14.45

SESSION 7 MM

AGORA 1-2

My career in molecular microbiology

Chair:

13.15-13.45

M08

Alternative careers in Biotech: Lessons from Entrepreneurship

Giorgia Greter, Zurich

13.45-14.05

M09

From bench to blackboard

Thomas Fiedler, Muttentz

14.05-14.25

M10

Leading with Science: Forging a Career as a Molecular Microbiologist in Big Pharma

Rusudan Okujava, Basel

14.25-14.45

M11

The Good, the Bad, and the Ugly of an Academic Career

Andrea Vettiger, Lausanne

13.15-14.45

SESSION 8 MY

MILES DAVIS 3-4

Swiss Mycology Symposium

Chair:

13.15-13.30

S11

Diversity and distribution of tree-associated fungi in the Caucasus region and their potential risk to European forests

Luis Ever Vega Cabrera, Birmensdorf

13.30-13.45

S12*

Disentangling between soil properties and fungal plant pathogens to understand tree dieback in urban areas

Linda Phillipona, Neuchâtel

13.45-14.00

S13*

Morels co-cultivation with apple trees: a potential for mycosylviculture?

Alix Jornot, Neuchâtel

14.00-14.15

S14

From apple-skin waste to fungal rodlets: discovering class I hydrophobins in *Ganoderma adspersum*

Carolina Reyes, Dübendorf

14.15-14.30

S15*

Speckle spectroscopy as a non-invasive tool for mycelium network characterization

Judith Gómez Cuyàs, Zurich

14.30-14.45

S16

Frequency-Dependent Growth Responses of *Pleurotus* spp. to Audible Sound Exposure

Raymond Place, Bern

* Student presentation

BE A GAME CHANGER
You can make a global impact

13.15-14.45

SESSION 9 ME

AGORA 5

Microbial Ecology

Chair:

13.15-13.45

M12

Engineering the plant microbiome: large scale application of microbial biostimulants for sustainable agriculture

Raphaël Bousageon, Zurich

13.45-14.00

S17

Soil microbial functions and carbon utilization across a large environmental gradient

Aline Frossard, Brimensdorf

14.00-14.15

S18

Laboratory evolution enhances resilience of a symbiont yeast and its honeybee host against agrochemical exposure

Simone Mozzachiodi, Cambridge (UK)

14.15-14.30

S19

Spatial organization of biomass controls intrinsic permeability of porous systems

Pietro De Anna, Lausanne

14.30-14.45

S20

Historical nutrient regimes select distinct methane-cycling communities in lake sediments

Alice Bosco Santos, Lausanne

13.15-14.30

SESSION 10 VI

AGORA 3-4

Virology

Chair:

13.15-13.45

M13

Genomic and functional diversification of the bat antiviral innate immunity

Lucie Etienne, Lyon (FR)

13.45-14.00

S21*

Development of two classes of non-toxic broad-spectrum antivirals

Nolwenn Steffen, Lausanne

14.00-14.15

S22

Rethinking Feline Coronavirus Research: Alternative in vitro systems to study a complex virus

Kimberly Schmied, Bern

14.15-14.30

S23*/MT10*/P020*

Targeting Rhinovirus IRES as new approach for antivirals

Stefano Giunta, Lausanne

* Student presentation

BE A GAME CHANGER
You can make a global impact

15.00-16.30 **Being a Microbiologist today organized by the Early Career Section** **MILES DAVIS HALL**

Chairs: Marion Aruanno, Lausanne; Alessandra Vitale, Lausanne

15.00-16.30 **Microbiology and social media: Communicating clearly in the age of misinformation**
Noémie Matthey, Bern; Samuel Van Gele, Stuttgart (DE)

16.30-17.00 **Coffee break / Poster viewing / Exhibition** **EXHIBITION**

17.00-18.30 **Being a Microbiologist today organized by the Early Career Section** **MILES DAVIS HALL**

Chairs: Marion Aruanno Lausanne; Thomas Simonet, Lausanne

17.00-18.30 **Science without burnout: Well-being and career balance**
Sophie Martin, Geneva; Kevin Nils Baumann, Basel;
Maryame Bina, Basel

18.30-20.00 **Networking aperitive (early career)** **EXHIBITION**

* Student presentation

10.15-10.40 K02	Carnivorous Fungi: From Molecules to Ecosystems Yen-Ping Hsueh, Tübingen (DE)	
10.40-10.50	Discussion	

10.50-12.20	SESSION 11 CM	MILES DAVIS HALL
	Lung infections	
	Chair:	
10.50-11.20 M14	Beyond microbiology: Pragmatic tools for optimizing antibiotic use in lung infections Noémie Boillat Blanco, Lausanne	
11.20-11.35 S24	CRISPRi-seq reveals human body-site-specific pressures on pneumococci Amelieke Cremers, Lausanne	
11.35-11.50 S25	Hidden genome dynamics: structural variation in chronic <i>Burkholderia cepacia</i> complex infections Aline Cuénod, Zurich	
11.50-12.05 S26*	Tailored phage selection for the treatment of chronic airway infections due to MDR <i>Pseudomonas aeruginosa</i> Klara-Isabell Garbe, Zurich	
12.05-12.20 S27	Performance evaluation of AI-assisted auramine microscopy in routine mycobacterial diagnostics Bettina Schulthess, Zurich	

10.50-12.20

SESSION 12 MM

AGORA 1-2

Mechanisms of microbial interactions

Chair:

10.50-11.20

M15

Discovery and modulation of metabolic interactions among plant-associated bacteria

Alan Pacheco, Lausanne

11.20-11.35

S28

Glucosinolate transport shapes spatial microbiome assembly along the root axis in two Brassicaceae species

Andra-Octavia Roman, Zurich

11.35-11.50

S29

Microbial community complexity modulates emergent metabolism

Simran Aulakh, Cambridge (UK)

11.50-12.05

S30

Yellow protein co-opted to sustain obligate symbiosis in leaf beetles

Marleny Garcia-Lozano, Lausanne

12.05-12.20

S31*

Modulation of intercellular tunnelling nanotubes of Dictyostelium discoideum by Legionella pneumophila

Luca Langlois, Zurich

10.50-12.20

SESSION 13 MY

MILES DAVIS 3-4

Fungi in nature and biotechnology

Chair:

10.50-11.20

M16

Fungi as a Platform for Sustainable Bio-Based Living Materials

Gustav Nyström, Dübendorf

11.20-11.35

S32

Fungal-based biosorption: An eco-friendly strategy for heavy metal removal from contaminated water

Anjali Prajapati, Gujarat (IND)

11.35-11.50

S33

Synthetic lichen for the conversion of lignocellulosic biomass into fuels and chemicals

Derek Troiano, Bern

11.50-12.05

S34

Effect of Bacillus velezensis K-165 volatiles on Botrytis cinerea and Arabidopsis protection

Floriane L'Haridon, Fribourg

12.05-12.20

S35

Population control by the T3SS sustains a bacterial-fungal endosymbiosis

Olivia Bossert, Zurich

* Student presentation

BE A GAME CHANGER
You can make a global impact

10.50-12.20

SESSION 14 ME

AGORA 5

Microbes and environmental change

Chair:

10.50-11.20

M17

From dividing to dormant: the microbial activity spectrum and its ecological consequences

Ashley Shade, Lyon (FR)

11.20-11.35

S36*/P155*

Sublethal pesticide exposure and the honey bee gut microbiota: interactions and impacts on bee health

Jamille Viray, Lausanne

11.35-11.50

S37*

Understanding soil microbiomes' drivers using function-based global ecosystems classifications

Eurgenio Perez Molphe Montoya, Zurich

11.50-12.05

S38

Stickland metabolism operates as a distributed community property governed by hierarchical thermodynamic constraints

Wenyu Gu, Lausanne

12.05-12.20

S39

Rethinking chain-length distribution dynamics in diatom populations through cell size and cellular organization

Elliott Flaum, Grenoble (FR)

10.50-12.20

SESSION 15 VI

AGORA 3-4

Zoonoses & vector-borne viral diseases

Chair:

10.50-11.20

M18

Dissecting Zoonotic Virus Infection Through Advanced Cellular Imaging

Christian Sieben, Braunschweig (DE)

11.20-11.35

S40*

Viral inhibition through structure targeting the frameshifting element of SARS-CoV-2

Fatima Zahra Lissane Eddine, Lausanne

11.35-11.50

S41*/P151*

Hemagglutinin-associated stability of H5N1 influenza A virus in exhaled respiratory droplets

Elysa Blanvalet, Zurich

11.50-12.05

S42

Tracking West Nile Virus in Southern Switzerland

Giulia Zezza, Mendrisio

* Student presentation

BE A GAME CHANGER
You can make a global impact

13.30-14.05 POSTER FLASH SESSION

MILES DAVIS HALL

Chair:

- 13.30-13.33** Development and implementation of an evolutionary algorithm for engineering microbiomes via environmental modulation
PF01*/P001*
Rose Evard, Lausanne
- 13.35-13.38** Impact of OprF porin deletion on the efficacy of imipenem therapy in a murine sepsis model caused by *Pseudomonas aeruginosa* producing NDM-1 carbapenemase
PF02/P003
Soraya Herrera-Espejo, Fribourg; Patrice Nordmann, Fribourg
- 13.40-13.43** Host specificity depends on spatial scale: insights from micromammal gut microbiota
PF03*/P005*
Giorgia Wennubst Pedrini, Lausanne
- 13.45-13.48** Establishing genetic modification in primary-like human airway epithelial cultures
PF04*/P007*
Marc Ledergerber, Zurich
- 13.50-13.53** Chimerophore antibiotics: combining host defense peptides for multimodal antimicrobial activity
PF05*/P009*
Liz Armas Egas, Zurich
- 13.55-13.58** Decoding Type IV Pilus Recognition of *Pseudomonas aeruginosa* Phages
PF06*/P011*
Sophia Zimmermann, Zurich
- 14.00-14.03** Integrated metagenomic and metabolomic features Predict opportunistic pathogen expansion in allogeneic hematopoietic cell transplant recipients
PF07/P013
Margot Delavy, New York (USA)

* Student presentation

BE A GAME CHANGER

MILES DAVIS HALL

Chair:

09.20-09.25 Introduction & rules

09.25-09.30 Spatiotemporal interactions between biocontrol bacteria and
pathogenic oomycete
MT01*/P002*

Xiaoqing Zhang, Bern

09.30-09.35 Exploring the ecological and evolutionary roles of persisting
bacteriophages in traditional food fermentation
MT02*/P004

Jessica Ransome, Zurich

09.35-09.40 Pyoverdines as antimicrobial agents against human
opportunistic pathogens
MT03*/S63*/
P006*

Jens Scheidegger, Zurich

09.40-09.45 Exploration of novel mechanisms of manogepix resistance in
Candidozyma auris
MT04*/S03*/
P008*

Anaïs Hautefeuille, Lausanne

09.45-09.50 Whole-genome enrichment of *Mycobacterium tuberculosis* from
clinical samples: a sensitivity assessment
MT05*/P010*

Nina Liuta, Zurich

09.50-09.55 Lineage and microenvironment effects drive heterogeneous quorum
sensing activation in *Pseudomonas aeruginosa* microcolonies
MT06*/P012*

Xiaohe Liu, Zurich

09.55-10.00 Mapping the temperate phage landscape and integration
hotspots across *Staphylococcaceae*
MT07/S68/
P014

Davide de Rosa, Bern

* Student presentation

BE A GAME CHANGER
You can make a global impact

10.00-10.05 MT08*/P016*	In situ characterisation of corynephage infection in mycomembrane-bearing minicells Maina Arnau Alemany, Lausanne
10.05-10.10 MT09*/P018*	Effects of combinations of antibiotics on antibiotic resistance selection in aquatic environments Ramona Blattner, Bern
10.10-10.15 MT10*/S23*/P020*	Targeting Rhinovirus IRES as new approach for antivirals Stefano Giunta, Lausanne
10.15-10.20 MT11*/P022*	Development and validation of a LAMP assay for rapid detection of Escherichia coli associated UTIs with increased risk of urosepsis Janis Roggenmoser, Zurich
10.20-10.25 MT12/P024	Spontaneous recapitulation of endogenous colonization resistance following antibiotic therapy and the mechanisms underlying microbiota-mediated community resistance to Clostridioides difficile Andy Rashid, Bern; Luca Beldi, Bern

10.25-11.00	Coffee break / Poster viewing / Exhibition	EXHIBITION
--------------------	---	-------------------

11.00-12.00	Poster walk EVEN NUMBERS	POSTER AREA
--------------------	---------------------------------	--------------------

12.00-13.15	Lunch Break / Poster viewing / Exhibition	EXHIBITION
--------------------	--	-------------------

13.15-14.45	SESSION 21 CM Deep Wound Infections and Antimicrobial Resistance Chair:	MILES DAVIS HALL
13.15-13.45 M25	Wartime Wound Infections in Ukraine: Evolution of Antimicrobial Resistance among ESKAPE Viktoriia Holubnycha, Sumy Oblast (UA)	
13.45-14.00 S60	Rising spread of Carbapenemase producing enterobacterales in Switzerland over the last five years report from the NARA reference center Laurent Poirel, Fribourg	

* Student presentation

BE A GAME CHANGER
You can make a global impact

- 14.00-14.15** **Hidden plasmid transmission by temperate phages drives antimicrobial resistance spread in phage-resistant staphylococci**
S61
Jingxian Yang, Bern
- 14.15-14.30** **Development of the Rapid ESBL-Carba Combo PN test, a combined biochemical assay for detection of ESBL and carbapenemase in Enterobacterales**
S62
Soraya Herrera-Espejo, Fribourg; Patrice Nordmann, Fribourg
- 14.30-14.45** **Pyoverdines as antimicrobial agents against human opportunistic pathogens**
S63*/MT03*/P006*
Jens Scheidegger, Zurich

- 13.15-14.45** **SESSION 22 MM** **AGORA 1-2**
Bacterial genetics and Mobile Genetic Elements
Chair:
- 13.15-13.45** **Role of mobile genetic elements in spreading phage resistance in bacterial populations**
M26
Anne Chevallereau, Lyon (FR)
- 13.45-14.00** **The Integrase encoded in a widespread ICE colocalizes with the type IV secretion system to mediate efficient DNA transfer**
S64
Andea Daveri, Geneva
- 14.00-14.15** **Synergy or antagonism? Decoding the rules behind 2,000 phage-antibiotic combinations**
S65*
Valentin Rodriguez, Lausanne
- 14.15-14.30** **Unraveling the functional dark matter in phage genomes with HIDDEN-SEQ**
S66*
Dorantina Humolli, Zurich
- 14.30-14.45** **Functional Characterization of Borg Proteins via Heterologous Expression in Methanosarcina acetivorans C2A**
S67
Akshay Joshi, Zurich

* Student presentation

BE A GAME CHANGER
You can make a global impact

13.15-14.45

SESSION 23 MY

MILES DAVIS 3-4

Viruses of fungi and bacteria

Chair:

13.15-13.45

M27

Circular viroid-like RNA infectious elements infect fungi altering their biological properties

Massimo Turina, Torino (IT)

13.45-14.00

S68/MT07/

P014

Mapping the temperate phage landscape and integration hotspots across taphylococcaceae

Davide de Rosa, Bern

14.00-14.15

S69*

Monitoring of single-cell bacterial lysis by phages within integrated optical traps

Hugues de Villier de la Noue, Lausanne

14.15-14.30

S70

Novel Mycobacteriophages as a Promising Adjunct in the Fight Against Drug-Resistant TB and NTM Infections

Anthony Vocat, Lausanne

14.30-14.45

S71*

Diverse wastewater staphylococcal phages reveal a novel family, intron-spliced terminase genes, and phylogeny-taxonomy associated infection patterns

Sandra Perez-Jimenez, Bern

13.15-14.45

SESSION 24 NCCR

AGORA 5

Microbiomes: Towards controlling microbiomes

Chair:

13.15-13.45

M28

tbc

Michael Zimmermann, Heidelberg (DE)

13.45-14.00

S72

From correlations to interactions: predicting and engineering butyrate production in microbial communities

Julian Garneau, Lausanne

14.00-14.15

S73

Hitchin' a ride: Studying how bacteriophage-mediated transduction shapes bacterial evolution in complex intestinal communities

Susanne Meile, Aurora (USA)

* Student presentation

BE A GAME CHANGER
You can make a global impact

14.15-14.30 **Exploring Phyllosphere Bacterial Community Dynamics in a Continuous Culture System**
S74*
Alex Cessna, Zurich

14.30-14.45 **Individual bacterial taxa drive colonisation resistance to methicillin-resistant Staphylococcus aureus in human nasal microbiome samples**
S75*/P156*
Laura Brülisauer, Zurich

13.15-14.45 SESSION 25 **AGORA 3-4**
Lay communication: Comic Strip workshop
Chair: Lay Communication Committee

13.15-14.45 **Workshop**

14.45-15.15 **Coffee break / Poster viewing / Exhibition** **EXHIBITION**

15.15-15.50 **KEYNOTE 5** **MILES DAVIS HALL**

15.15-15.40 **Innovating Against AMR: The Role of Diagnostics**
K05
Robin Patel, Rochester (USA)

09.10-09.20 **Discussion**

15.50-16.30 **Awards & Closing remarks** **MILES DAVIS HALL**
Chairs:

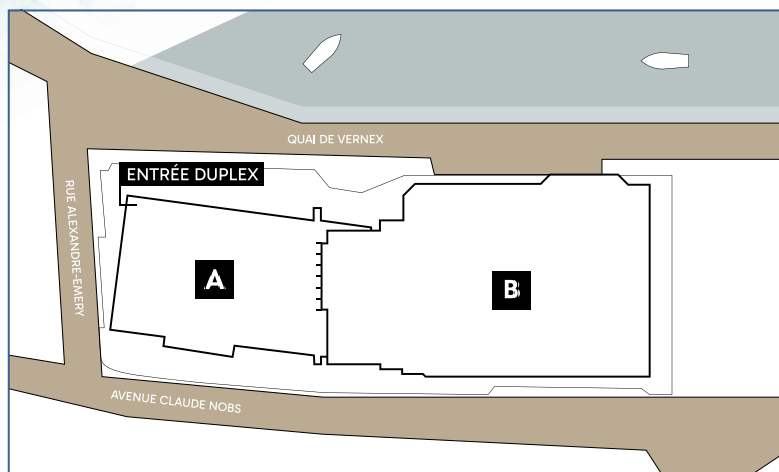

15.50-16.00 **SSM PhD Award**

16.00-16.10 **SSM Encouragement Award**

16.10-16.30 **Poster and short talk Awards**
Closing remarks

16.20 **Farewell**

* Student presentation

Arrival

- By car: take the motorway exit “Montreux” and follow the signs towards the lake and Montreux city center. Continue in the direction of the 2m2c Montreux Music & Convention Centre. Several public parking facilities are available nearby.
- By train: travel to Montreux railway station. From there, the 2m2c Montreux Music & Convention Centre can be reached in approximately 7 minutes on foot along the lakeside promenade.

Venue

2m2c Montreux Music Convention Center
Avenue Claude-Nobs 6, 1820 Montreux
<https://2m2c.ch/fr>

Entrance of the 2m2c: Duplexe (not via the main entrance)

Meeting rooms :

Miles Davis Hall, Agora 1-3, Agora 5, Miles Davis 1-2, Miles Davis 3-4

Networking Dinner

On Thursday August 27, 2026 at the 2m2c Montreux Music Convention Center
18.45-19.30 Aperitive
As of 19.45 Networking Diner
