CHUV postgraduate Education Course

Invasive Fungal Infections Symposium

Welcome

Welcome to this year's symposium!

The service of infectious diseases and the Institute of microbiology are delighted to invite you to this Symposium dedicated to invasive fungal infections.

This afternoon, we will review recent advances and practical challenges in the diagnosis and management of invasive fungal infections, from complex clinical cases and fungal diagnostics to radiological approaches, transplant recipients, rare mould diseases, ICU antifungal therapy and novel antifungal agents.

We look forward to welcoming you in Lausanne.

Pr Frédéric Lamoth
Pr Pierre-Yves Bochud

Course Objectives

Provide an overview on the last highlights in the recent advances in the diagnosis, management and meant of invasive fungal.

Target Audience

Specialists in infectious diseases, pulmonology, intensive care, radiology, hematology, microbiology and thoracic surgery.

Our partners

mundipharma

united for patients.

basilea PHARMACEUTICA
